Project Design Phase-II
Data Flow Diagram & User Stories

Date	21-10-2026
Team ID	23KD1A0592
Project Name	Indoor Gardening Services Management (IGSM)
Maximum Marks	4 Marks

Data Flow Diagrams:

User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance Criteria	Priority	Release
Administrator	Application Setup	USN-1	As an administrator, I can create the IGSM scoped application with its users, roles and groups.	Application, roles and groups are created and users are assigned.	High	Sprint-1
Requester (Employee)	Raise Service Request	USN-2	As a requester, I can open the Indoor Gardening Request catalog item and select plant type, service type, priority and enter a description.	Request details are captured successfully.	High	Sprint-1
Requester (Employee)	Raise Service Request	USN-3	As a requester, I can choose who the request is for and a preferred date.	Requested For and Preferred Date are saved on the request.	Medium	Sprint-1
Requester (Employee)	Request Submission	USN-4	As a requester, I can submit my request using the record producer.	Request record is created with State = New and a request number.	High	Sprint-1
Requester (Employee)	Request Validation	USN-5	As a requester, I get Low priority set automatically if I forget to select a priority.	Priority is Low when left blank.	Medium	Sprint-1
Requester (Employee)	Request Validation	USN-6	As a requester, I must enter a description when I select High priority.	Description is mandatory for High priority and optional for other priorities.	Medium	Sprint-1
Manager	Approval and Assignment	USN-7	As a manager, I can approve or reject a new request.	If approved, the flow continues. If rejected, State is updated to Rejected.	High	Sprint-1

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance Criteria	Priority	Release
Technician	Approval and Assignment	USN-8	As a technician, I can see the approved requests assigned to my group.	Approved request is assigned to the technician group and State = Assigned.	High	Sprint-1
Requester (Employee)	Notification	USN-9	As a requester, I get an email once my request is approved and assigned.	Email is received with the message "Your Indoor Gardening request has been approved and assigned."	Medium	Sprint-2
Technician	Request Completion	USN-10	As a technician, I can update the request State to Completed after finishing the work.	State changes to Completed and the Completion SLA stops.	High	Sprint-2
Manager	SLA Management	USN-11	As a manager, I can see the response and completion SLA on each request.	Response SLA (4 hours) and Completion SLA (2 days) are visible on the record.	Medium	Sprint-2
Requester (Employee)	Access Control	USN-12	As a requester, I can see only my own requests.	Requester can read only their own records.	High	Sprint-2
Manager	Access Control	USN-13	As a manager, I have full control over all requests.	Manager can read, write, create and delete requests.	Medium	Sprint-2
